

21 January, 2025

To:

**His Excellency António Guterres**

Secretary-General

United Nations

New York, NY 10017

USA

**Your Excellency,**

I am writing on behalf of **Lusail Energy and Metal Trading W.L.L.** to formally reaffirm our deep commitment to the principles and values championed by the United Nations, including the Ten Principles of the United Nations Global Compact regarding human rights, labour, environment, and anti-corruption. It is our great honor to reconfirm our support and our resolve to fully integrate these principles into the strategy, culture, and daily operations of our company, as well as to contribute proactively to the achievement of the Sustainable Development Goals (SDGs).

As a Qatar-based firm with global operations, Lusail Energy and Metal Trading W.L.L. recognizes the responsibility we shoulder in promoting ethical conduct, environmental stewardship, and fair labor practices across our diverse supply chains. We specialize in the procurement and brokerage of fuels and metals, such as Lithium, and we believe that sustainability, responsible business practices, and respect for human rights are vital cornerstones of growth in all regions where we operate. Our core principles demand that we maintain transparency, encourage stakeholder engagement, and champion collaboration with organizations that share our vision of a more sustainable and equitable world.

With this communication, we wholeheartedly renew our alignment with the UN Global Compact and pledge to:

### **1. Integrate the Ten Principles**

We strive to incorporate the Ten Principles of the UN Global Compact into every dimension of our company's strategic planning, culture, and everyday decision-making processes. By upholding human rights, fair labour standards, environmental responsibility, and anti-corruption measures, we underscore our commitment to long-term, meaningful impact.

Singapore 189721

## 2. Engage Collaboratively to Advance UN Goals

We pledge to expand our partnerships and collaborative efforts, both locally and globally, to further the broader development goals of the United Nations, particularly the SDGs. Our approach to sustainability is holistic—we actively seek dialogue with governmental bodies, civil society, and industry peers to ensure inclusive and innovative solutions that address today’s most pressing global challenges.

## 3. Maintain Transparency and Accountability

We fully recognize that strong corporate governance rests on transparent communication and robust reporting mechanisms. A key requirement for participating in the UN Global Compact is the annual submission of a Communication on Progress (CoP). In this regard, we reaffirm our dedication to regularly disclosing our efforts to embed the Ten Principles and to align our broader corporate priorities with the UN’s sustainable development agenda.

Concretely, this implies:

- **Executive-Level Endorsement:** Each year, our chief executive will issue a formal statement expressing Lusail Energy’s unwavering support for the UN Global Compact and our ongoing commitment to upholding its principles and values.
- **Comprehensive Reporting:** Through the UN Global Compact online questionnaire and supporting documentation, we will detail our achievements, lessons learned, and continuous improvements across the areas of human rights, labour, environment, and anti-corruption. This report will be made publicly available, reflecting our dedication to fostering an open dialogue with all stakeholders.

At Lusail Energy and Metal Trading W.L.L., we recognize that genuine progress stems from forging respectful, empathetic, and forward-thinking partnerships. We therefore remain steadfast in our devotion to collaborative action with the UN and other stakeholders. Our corporate ethos emphasizes ethical leadership, innovation, and community engagement. We believe it is our duty—not merely an option—to operate in a way that protects the environment, advances social justice, upholds the dignity of workers, and drives sustainable economic development in every region where we do business.

By joining forces and leveraging our collective expertise, we can continue to refine global best practices and inspire renewed momentum in addressing the critical challenges facing our planet and its people.

Sincerely yours,

Filippos G. Dounis

Board Member and Chief Operations Officer

Lusail Energy and Metal Trading W.L.L.
